ABOUT ME

Educator and ESL teacher with 4 years experience looking to move into the web development field. A passionate learner having graduated from Le Wagon's Full Stack bootcamp in 2019. Aiming to use and build on tech skills to create and improve a product or service.

SKILLS

- HTML5, CSS3, Javascript ES6, jQuery
- Node JS, Express
- MongoDB
- APIs, JSON, Scraping
- Wireframes, prototyping, UI Design
- Git, Github, Technical Workflow

PROJECTS

MORE DEAL SOURCING LANDING PAGE

- Node Js express app with nodemailer for collecting client emails in MongoDB.

JAVASCRIPT SNAKE WITH LEADERBOARD SCORE

- Modular native javascript code includes basic API and routing for leaderboard and posting new scores.

A/B TESTING WECHAT MINI PROGRAM - ASK THE CROWD

- Instagram UI/UX inspired voting app developed using javascript managing backend server data in local data and Sass.

Other projects also viewable on my github include Puppeteer Property Scraping, Ruby on Rails & SQL Cocktails Page, React JS gif app and a RESTful API English online learning platform [under development].
