SKILLS

- HTML5, CSS3, Javascript ES6, jQuery
- Node JS, Express
- MongoDb
- APIs, JSON, Scraping
- Wireframes, prototyping, UI Design
- Git, Github, Technical Workflow

PROJECTS

MORE DEAL SOURCING LANDING PAGE
- Node Js express app with nodemailer for collecting client emails in MongoDb.

JAVASCRIPT SNAKE WITH LEADERBOARD SCORE
- Modular native javascript code includes basic API and routing for leaderboard and posting new scores.

A/B TESTING WECHAT MINI PROGRAM - ASK THE CROWD
- Instagram UI/UX inspired voting app developed using javascript managing backend server data in local data and SASS.
- Other projects also viewable on my github include Puppeteer Automated Paginated Web Scraping, Ruby on Rails & SQL Cocktails page, React JS Gif App and a RESTful API English online learning platform [under development].

WHY ME?

- I'm a team player - Duke of Edinburgh Gold Award.
- I'm a leader - Lead 5 business start ups to gain funding with Balloon Ventures in Kenya.
- I believe in sustainable business in the fight to end poverty - I partnered and invested in a sugar cane farm in rural Kenya which raised £3000 in net-profits.
